Professional Summary

Full Stack Developer with production experience designing, deploying and maintaining React, Next.js, Node.js, Express.js, TypeScript and PostgreSQL applications for Central Railway and 4+ clients. Skilled in REST APIs, RBAC, responsive interfaces, database design, SQL optimization, Docker, Linux, testing, debugging and production support.

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend & APIs: Node.js, Express.js, REST APIs, MVC
Databases: PostgreSQL, Prisma ORM, Database Design, SQL Optimization
Authentication: NextAuth, Google OAuth, Role-Based Access Control (RBAC)
DevOps: Docker, Docker Compose, Linux, Production Deployment **Tools:** Git, GitHub, Postman, Render, Railway
Concepts: Testing, Debugging, System Design, Scalability, Performance Optimization

Experience

Central Railway Aug 2024 – Mar 2025
Full-Stack Developer (Team Lead)

- Led end-to-end delivery and production rollout of a healthcare platform digitizing patient records, prescriptions and appointment workflows.
- Owned system architecture, Docker-based deployment, production debugging and maintenance across Linux, Render and Railway environments.
- Automated WhatsApp distribution of prescriptions and reports, streamlining communication for healthcare professionals.
- Partnered with clinical stakeholders to translate workflows into maintainable production features; recognized as an inventor in a submitted research paper (Application No. 202521020607).

Freelance Full-Stack Developer Jan 2025 – Present
Self-Employed

- Delivered and maintained production software for 4+ clients across legal, fashion and non-profit sectors.
- Translated client requirements into maintainable architectures and owned responsive frontend development, backend APIs, database design, testing and deployment.
- Maintained deployed systems, resolved production issues and iterated features through direct client communication.

Bharati Vidyapeeth Mar 2026
Technical Trainer

- Delivered hands-on workshops for nursing staff on Microsoft Office tools and AI Copilot, demonstrating practical features and workflows for more effective use.

GeeksforGeeks DET Chapter Jul 2025 – Jul 2026
Chairperson

- Led chapter technical workshops and coding initiatives; organized an n8n Automation Workshop, International Student Meet and Women in Science & Technology Day with speakers and faculty.

Projects

Central Railway Patient Management System
Node.js, Express.js, PostgreSQL, EJS, Tailwind CSS

- Architected Node.js and Express.js REST APIs with PostgreSQL for appointments, patient records, electronic prescriptions, Google OAuth and role-based access.
- Developed EJS and Tailwind CSS clinical interfaces and integrated PDF generation, WhatsApp automation and HTML5 Canvas-based X-ray annotation.
- Optimized PostgreSQL schemas and queries, validated APIs with Postman, and containerized deployment using Docker and Docker Compose on Linux, Render and Railway.

Temple ERP & Digital Donation Management Platform
Next.js, TypeScript, Prisma ORM, Tailwind CSS, NextAuth

- Developed a responsive full-stack ERP using Next.js, TypeScript, Prisma and PostgreSQL for billing, donation management, administrative workflows and reporting dashboards.
- Secured backend APIs with NextAuth and role-based authentication for Super Admin, Admin and Staff.
- Containerized deployment with Docker Compose and implemented PDF invoices, thermal receipt printing and Excel export.

Certifications

The Complete Full-Stack Web Development Bootcamp

Achievements

- Received a Letter of Appreciation from Central Railway for leading development of a healthcare platform.
- Received official recognition from Bharati Vidyapeeth for Microsoft 365 and AI Copilot training.
- Secured 1st Place in a Web Designing Competition.

Education

Bharati Vidyapeeth (DU) – Department of Engineering and Technology
B.Tech in Computer Science and Engineering, Expected 2027 CGPA: 9.12/10.00
